## Assured Quality.

*Manufactured using high-quality materials and strict quality control standards.*

## Trusted Support.

*Dedicated customer support to assist with product selection and technical guidance.*

## Low Maintenance.

*Designed for durability and minimal maintenance requirements.*

# About Us

Established in 2023, Amstar Pumps was founded with a vision to provide high-quality, reliable, and affordable water pumping solutions for homes, farms, and businesses. Driven by strong engineering expertise and a commitment to innovation, we manufacture a wide range of products including 4" submersible pump sets, openwell submersible pumps, monoblock pumps, self-priming pumps, and other water management solutions tailored to the needs of the Indian market.

Every Amstar product is designed for efficiency, durability, and dependable performance, backed by rigorous quality control and modern manufacturing practices. From supporting agricultural irrigation to ensuring reliable household water supply, our solutions are built to deliver long-lasting value and customer satisfaction.

Today, Amstar Pumps continues to grow with a simple promise — delivering trusted water solutions through quality, innovation, and exceptional service.
